

Fostering Partnership Development:

An Historical Look at the National Literacy Secretariat Business and Labour Partnership Program

Fostering Partnership Development: An Historical Look at the National Literacy Secretariat Business and Labour Partnership Program

Partnerships in Learning, the National Advisory Committee, and the Project Team would like to thank the many committed people who gave their time, energy, and expertise to developing this final report. We would like to express our sincere appreciation to all of the participants who were interviewed for the study. Their preparedness, untiring interest, and dedication to the field of adult literacy have contributed significantly. By working together, we believe that this report sheds a deeper understanding of how the National Literacy Secretariat has fostered partnership development through its Business and Labour Partnership Program. We would be remiss if we did not acknowledge the vision and leadership of Yvette Souque in her capacity of advisor in this project, and so many others over the decades.
